

It's not somewhere we have to
be.... it's somewhere we want
to be.

Thank you very much for making
my first year at Prior's Field great fun.
I am extremely glad that I chose this
school.

We **experience** new things every day

Daisy

Year: 7

Likes: Languages

Hobbies: Tennis

I'm Daisy, I have had a really good start at Prior's Field because it's full of exciting opportunities and new experiences. I'm a tennis scholar and joined just as the Tennis Academy had been set up. This means I have normal lessons with everyone, but I can also follow my passion seriously and have time during each day with my tennis coach. Alongside core subjects I really enjoy learning new skills like making bread and working with textiles.

In the first term we all went to Shropshire together and took part in lots of activities such as canoeing, caving and night walks. A highlight for me was getting to know the teachers and girls and making new friends.

We have over 40 clubs to choose from each term I loved jewellery club where I made crystal bracelets and pearl tassel necklaces. My friends took part in gym club and rock climbing. Being sporty I also love being part of school teams!

I am in Frank House and have taken part in house hockey, netball and cross country competitions. Everyone gets involved. There are lots of house challenges like cheerleading, dance and problem solving, which are also fun.

So far I have loved all my subjects. When we join we choose from Spanish, Latin and French so we can have a go at two languages.

The lunches and tuck shop are really yummy and we have an amazing full of tasty treats.

I am really enjoying Prior's Field and have made lots of friends. I love everything - the teachers, girls, the food, the clubs, lessons, everything!

I enjoy the freedom we get to choose our own path, guided by some amazing teachers.

We're given to follow our dreams

Freedom

Helena

Year: 10

Likes: Art

Hobbies: Horse riding

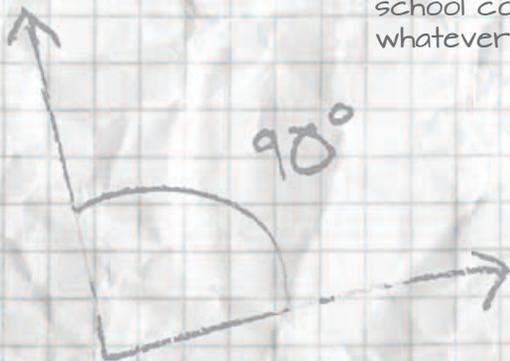

I'm Helena and I'm really enjoying my first year of GCSE. I chose music and the department runs lots of events like The Big Picnic, which was a small music festival. Every term there are tea time concerts to help build confidence in the younger girls as they perform to small audiences over a cup of tea!

I also chose art and so far this year I have been to two exhibitions which have really inspired me. In other years I have been on art history trips to Rome and Venice. After school I am doing GCSE photography club, which is great for developing my skills and creativity.

Since year 7 I've been part of Greenpower club. This has taught me about teamwork as well as engineering and it is one of the main reasons I have chosen design technology for GCSE. We built a car powered by solar batteries and have reached the national finals at Goodwood three times, racing against lots of other school teams.

As I have two horses I take part in the school riding team and love doing this. I'm involved in school competitions and everyone joins in, whatever their standard.

We are also into charity work, including termly poverty lunches and sponsored events. The staff here make PF such a strong family and I recommend it to anyone looking for a secondary school that's full of fun.

We have a world
of

OPPORTUNITIES

Kimi

Year: II

Likes: Science

Hobbies: Music

My name is Kimi and I am studying 10 subjects for GCSE.

Apart from academic work, there are loads of extra-curricular activities to get involved in, from sport teams to drama clubs and yoga sessions. My passion is music. I play piano in the jazz band and guitar in the Rock and Pop sessions. If classical music is your thing, there is a concert band and string groups with aural and theory classes to help you prepare for music exams. We all enjoy the annual music competition where we can earn points for our houses.

The drama department runs senior and junior productions each year. Last autumn I did the lighting for Sweet Charity. There is also the chance to take part in the national Schools' Shakespeare Festival and lots of girls do LAMDA or RADA lessons.

We also get involved in the Junior Sports Leadership Award and can coach sports at local prep schools. The Bronze Duke of Edinburgh Award is fantastic fun with the option to do silver and Gold levels later on.

If you want to improve your leadership skills then PF has lots to offer. I am the Green Rep for my form which involves running school campaigns to save energy, highlight food waste and organise fundraising days for eco charities. Being a Peer Mentor is also rewarding as I can help younger students when they need someone to talk to.

I hope to follow a career in maths, science or medicine so I am studying three separate sciences, but I have kept my options open by choosing music as well!

Each pupil is their own person, not just a face in the crowd.

We aren't
just friends,
we're

family

Jess

Year: Lower Sixth

Likes: Sports

Hobbies: Performing arts

I'm Jess and I've been a boarder for six years as my father is in the armed forces. The school has been my second home and I have memories and friends that will last forever. I'm really enjoying the academic subjects I have chosen but outside of the classroom I am also very busy and have kept up with the hobbies and activities I love most. When I first joined I hadn't played netball or hockey before but by my second year I was playing in all the teams. I am currently in the 1st XI hockey team and it's great to play with the friends who I started out with in the days when we hardly knew which way up to hold the hockey stick! It's my love of sport that developed my interest in the Duke of Edinburgh Award. I've just been on an expedition to Morocco for my Gold Award.

Another hobby which has developed into a passion is performing arts. I have been in every school production open to me and was chosen to play the lead in last year's musical, Cabaret. Watching the school's rock and pop concerts when I was younger captivated me and I started attending the workshops. That made me realise that I wanted to perform, just like the older girls I had seen. This year I auditioned for the National Youth Music Theatre and received a recall for one of their productions.

The people at Prior's Field are so inspirational - the school itself is one big heart of inspiration!

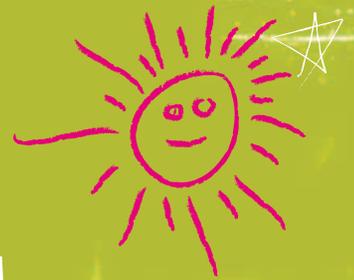

I know it won't matter whether I go on to be a bright shining star in the future, or simply lead a small life, Prior's Field has given me the option to become the person I need to be.

We can be

whoever

we want to be

Taylor

Year: Upper Sixth

Likes: Philosophy and art

Hobbies: Radio

I'm Taylor and my goal is to study Philosophy at university next year.

Since my first year I have learned so much, both in and out of the classroom. Our school has hosted some big events, with speakers like Michael Palin, Germaine Greer and Adam Hart-Davis. We also run inspiring sixth form conferences for ourselves and students from other schools.

I have really enjoyed debating club. It's been a great way to develop skills and learn new things - so have the trips on offer to places like Iceland, Paris, Seattle, and Peru.

I am programme controller for our radio station, 'Girls Allowed'. I've had the chance to interview amazing guests like George Alagiah and Carol Ann Duffy. Our local radio station took an interest in us and I was lucky enough to have two weeks of intense work experience with them. I learnt more than I could have imagined and am looking forward to a possible career in broadcasting or production.

As a prefect, I help to organise the younger girls in my form, and run whole school events. As Chair of School Council I have also led the fundraising for the school charity, which we girls choose. This year we supported a school in Africa with 'mad hair day' and RAG events. We've also held some incredible fashion shows for charity.

If my time at PF has taught me anything, it's that the family environment here is a package deal - You join, and then you work together and support each other in making decisions. I have met friends here that I will have forever and been given the self belief to deal with whatever comes next in my life.

Prior's Field isn't just a school...
It's a life experience, where
friends and memories are made.
Everyone is encouraged to aim
high and chase their ambitions,
whatever they are.

Prior's Field encourages
everyone to shine!
